Before Installing

How can I download Wi-Fi Scanner?

To download and install Wi-Fi Scanner please visit our [Download page](#).

Will it run on my operating system?

The latest version of Wi-Fi Scanner supports the following Windows platforms: Windows 7, Windows Server 2008R2, Windows 8, Windows 8.1, Windows Server 2012, Windows Server 2012R2, Windows 10, Windows Server 2016 .

System Requirements

To install and run Wi-Fi Scanner, your computer will need the following minimum requirements based on your operating system:

- Administrator privileges are required to install the software
- Super VGA 800 x 600 video adapter
- Wi-Fi adapter (Internal or external)
- Internet access is required to register and receive product updates

Can I install Wi-Fi scanner if I don't have administrative privileges?

No. To correctly install Wi-Fi Scanner you must have administrative privileges.

Registration

What limitations are there in an unregistered version?

Well, there are no functional limitations for unregistered versions and you may use Wi-Fi Scanner (during the evaluation period) as a fully registered program but only on one computer in the network. In addition, unregistered versions of Wi-Fi Scanner display nag screens.

What is the easiest way to order Wi-Fi Scanner?

The easiest way to purchase Wi-Fi Scanner is to buy pay via one of our payment options and download the software immediately.

After making your purchase you will receive an e-mail with a registration number which you will use to activate your copy of Terminal Services Manager. Click [here](#) to be directed to the ordering page.

Can I install Wi-Fi Scanner on more than one computer?

For every installation on a separate machine an additional license is required.

I have lost my registration number. How do I get it?

If you have lost your license code you may request a copy be sent to you.

Please fill out the [registration information request form](#).
